

# KEIRON SPEED

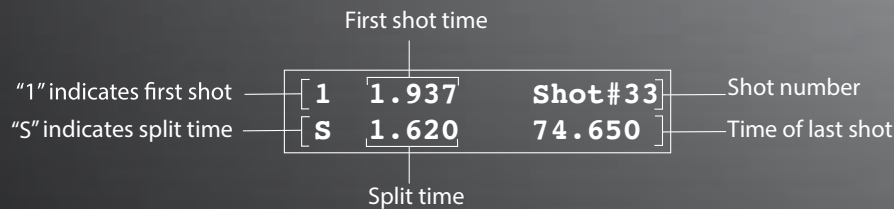

The **KEIRON SPEED** simulates real world stress of timed results. The target records and displays every shot count, shot times, and split times. Featuring 5 different training modes, focusing on agility, reaction, target visualization and accuracy. Utilize multiple targets to simulate various hit zones, create competitive courses or any number of drills.

# WHO WE ARE

TAC Crew is a Los Angeles based manufacturer and distributor of training tools and accessories. **OUR MISSION IS TO BE YOUR COMPLETE SOLUTION FOR FIREARMS TRAINING.** Constantly aiming to provide newly innovated products supplied with integrity craftsmanship.

Join the TAC Crew and evolve the way you train.

## KEIRON

REACTIVE TARGET SYSTEM

The **KEIRON TARGET SYSTEM** uses sophisticated technology to elevate firearms training to new levels. Train with real firearms using dry fire laser components or laser simulation firearms to receive instant visual and audible cues every time the target is hit. The KEIRON Advanced Laser Target Systems allow for varied and convenient training.

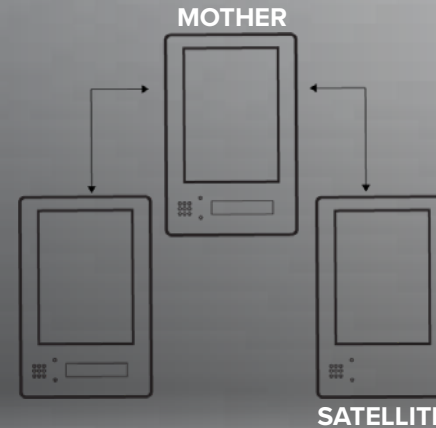

MODEL TC-K

MODEL TC-KSKPRO

**KEIRON PRO** series redefines the limits and capabilities of a laser target range. These networked targets incorporate the latest wireless radio technology, operating on a special developed radio protocol.

- Unlimited linkable targets
- 75 Yard range
- Endless training scenarios
- Multiple training modes

The shooter's strike data of all the networked targets are sent, collected and ready for review on the mother units back-lit LCD screen.
